

**KUDA™ TYPE A WORKBENCH 2D**

MACHLAB® KUDA™ workbenches share common design qualities that have earned MACHLAB® a trusted reputation in the industry. Typical features include a wide variety of drawer and door combinations to meet every job and storage requirement; fully welded base frames for strong loading capacity; extensive selection of task-oriented materials for work surfaces and shelves.

MODELS	W	D	H
KA-1575-2D	1500	750	750
KA-1875-2D	1800	750	750
KA-1590-2D	1500	750	900
KA-1890-2D	1800	750	900

**FEATURES**

- **300 kg** Load capacity
- **Fully welded joints**, industrial grade construction
- **Corrosion resistance\*** certified
- **Heavy-duty** adjustable nylon/stainless steel stabilisers
- **100 microns** powder coating finish
- **Full-extension** telescopic drawer slides
- Best industry **warranty (3 years)**

**SPECIFICATIONS**

- **Certified quality** (ISO2178, ISO2813, ISO2409, ASTM B117, ASTM D3363)
- **SHS 50x50x1.6mm steel base frame**
- **RHS 50x25x1.6mm steel crossbars**
- **Oven baked epoxy powder** coated steel components
- **25mmThk** work surface\*\*
- **ABS edge-band protection** for MFC work surface

**FINISH OPTIONS**

Powder coated steel components or stainless steel finish. Custom colour matching available upon request.

**WORK SURFACE MATERIAL OPTIONS**

- Melamine faced chipboard (MFC):
  - Graphite
  - Black
  - Light Grey
  - White
- Other materials:
  - Plywood
  - Rubberwood
  - ESD board
  - Stainless steel

\*Except wood-based worktops.  
\*\*Except ESD board (28mm).
