

KUDA™ TYPE E WORKBENCH

MACHLAB® KUDA™ workbenches share common design qualities that have earned MACHLAB® a trusted reputation in the industry. Typical features include a wide variety of drawer and door combinations to meet every job and storage requirement; fully welded base frames for strong loading capacity; extensive selection of task-oriented materials for work surfaces and shelves.

MODELS	W	D	H
KE-1275	1200	750	750/1350
KE-1575	1500	750	750/1350
KE-1875	1800	750	750/1350
KE-1290	1200	750	900/1500
KE-1590	1500	750	900/1500
KE-1890	1800	750	900/1500

FEATURES

- **300 kg** Load capacity
- **Fully welded joints**, industrial grade construction
- **Corrosion resistance*** certified
- **Heavy-duty** adjustable nylon/stainless steel stabilisers
- **100 microns** powder coating finish
- Best industry **warranty (3 years)**

SPECIFICATIONS

- **Certified quality** (ISO2178, ISO2813, ISO2409, ASTM B117, ASTM D3363)
- **SHS 50x50x1.6mm steel base frame**
- **RHS 50x25x1.6mm steel crossbars**
- **Oven baked epoxy powder** coated steel components
- **25mmThk work surface****
- **ABS edge-band protection** for MFC work surface

FINISH OPTIONS
